

Junior Software Developer - ClearSkies™

ABOUT US:

Established in 2002, Odyssey is a leader in Information Security and Risk Management, providing (beyond) Advisory Services that empower organizations around the world to securely conduct their business in a dynamically expanding and increasingly perilous information-threat landscape.

Our 360° approach encompasses a complete range of (beyond) Advisory Services comprised of Governance, Risk & Compliance (GRC), Managed Security Services (MSS), IthacaLabs™, Integrated Solutions, and Cloud Transformation.

Among our homegrown products is the award-winning ClearSkies™ Big Data Advanced Analytics Platform, an innovative service delivery vehicle via which we offer an array of next-generation Software-As-A-Service (SaaS) and Platform-As-A-Service (PaaS) products.

Odyssey is ISO 27001, ISO 9001 certified and accredited by the Payment Card Industry Security Standards Council (PCI SSC) as a Qualified Security Assessor (QSA).

IT'S GREAT WORKING HERE!

We are the first Cypriot company to have achieved a Great Place to Work™ certification in 2020 and we have been included in the Cyprus Best Workplaces™ list for 2021. These recognitions signify our commitment to creating an environment where our people can enjoy their day-to-day as well as feeling empowered to get where they want to go. As we continue to grow, we're committed to being a great global employer, integrating the human factor into everything we do while tapping into the power of technology to drive meaningful change.

THE ROLE:

Are you passionate about Software Development and would you enjoy working towards the continues development of our homegrown, award-winning ClearSkies™ Big Data Advanced Analytics Platform? If you like working with the latest and most exciting technologies, thrive in an agile environment and continuously challenge yourself, then look no further.

As a junior developer, you will contribute in analyzing, developing and implementing new features, coming up with innovative and efficient solutions and overcoming any challenges along the way. Our team of top-tier and experienced Developers will be there every step of the way, providing you with all the necessary mentoring, direction and fundamentals to grow and evolve as a professional and become an essential member of the team.

PRIMARY RESPONSIBILITIES:

- Analyzing functionality requirements, designing, developing and implementing software solutions
- Interacting with other developers, architects, researchers and analysts to achieve the best possible result
- Investigating and diagnosing issues, suggesting and implementing solutions
- Remaining abreast of technology trends and developments

SKILLS / ATTRIBUTES REQUIRED:

- Experience with .NET/C# (or similar programming languages)
- Good understanding of Object-Oriented Programming principles
- Familiarity with one of the below:
 - API development
 - Web Development (ASP.NET, JavaScript, HTML, CSS)
 - Relational databases (MSSQL or similar)
- Familiarity with git (or similar version control tool)
- Passion for learning, embracing challenges and innovation
- Analytical mindset and problem-solving skills
- Team-player with a positive mindset, strong focus and work ethic

QUALIFICATIONS:

- BSc in Computer Science or another related field
- Any post-graduate qualifications will be considered an advantage
- Relevant certifications and courses will be considered an advantage

What we Offer

- Competitive remuneration package (according to experience and qualifications)
- Private health & life insurance
- Provident fund scheme
- Work from home arrangements
- Performance-based awards and bonus
- Access to latest technologies and frameworks

To apply for this position, please send your CV to hr_recruitment@odysseycs.com

Please note that all CVs and any other Personal data sent to Odyssey are kept secure and confidential and will only be processed and/or stored for the purpose of potential offering employment. CVs and Personal data of successful candidates will be stored in our system for as long as the process of selection lasts. CVs and Personal data of candidates that are not successful or do not make it through our selection process, will not be stored or processed further and will be erased after a period of 6 months, unless the candidate provides us with an explicit consent allowing us to further store his/her Personal data in our system always in accordance with Personal Data Protection laws.
